Career Objective

Motivated and detail-oriented Communication and Electronics Engineering student with strong experience in full-stack web development, data analysis, and technical training. Seeking a junior-level opportunity where I can contribute my front-end and database skills, while continuing to grow in a collaborative, learning-driven environment.

Education

B.Sc. in Communication and Electronics Engineering *Oct 2022 - Jun 2027*
Shoubra Faculty of Engineering, Benha University – Egypt

Internships

Full Stack .NET Trainee
DEPI (Digital Egypt for Professionals Initiative) – Remote *Jun 2025 – Present*

- Built full-stack web apps using ASP.NET MVC, EF Core, and SQL Server
- Designed databases, APIs, and implemented authentication
- Collaborated on real projects using GitHub and Agile practices

React Front-End Trainee
Information Technology Institute (ITI) – Egypt *Jul 2025 – Aug2025*

- Developed SPAs with React, JSX, hooks, and API integration
 - Applied responsive design using modern front-end tools
 - Delivered a complete React project for evaluation
-

Courses

- **ITIDA Gigs Program** *Mar 2025*
Issued by: ITIDA (Information Technology Industry Development Agency)
Career preparation and freelancing training for digital work on platforms like Upwork and Freelancer.
 - **JavaScript Development Certificate** *Feb 2025*
Issued by: Udemy
Focused on core JavaScript concepts including DOM manipulation, event handling, loops, and functions.
 - **HTML & CSS Web Development** *Oct 2024*
Issued by: MaharaTech – ITIMooca
Completed foundational training in HTML and CSS for building responsive and accessible web pages.
 - **Technical Telecom Training** *Sep 2024*
Issued by: Systel Telecom
Hands-on training in telecom technologies, mobile networks, and industry tools used in communication systems.
-

Skills

Technical

HTML, CSS,
JavaScript,
SQL,
C++,
C#,
ASP.NET MVC,
APIs,
Git,
Power BI,
React (basic)

Tools

Visual Studio,
VS Code,
PyCharm, Figma,
GitHub,
Proteus,
Logisim

Soft Skills

Public speaking,
Team collaboration,
Leadership,
Self-learning

Projects

Smart University System – Full Stack Developer

Tools: Node.js, Google Sheets API, face-api.js

- Face recognition for user check-in, Google Sheets integration, TTS

Image Editor Web App – Front-End Developer

Tools: HTML, CSS, JavaScript

- Applied real-time image filters and transformations

GPA Calculator & Course Platform Website – Developer

- Developed responsive interfaces and integrated calculations and search

Upwork-style Freelancing Platform (DB Project) – Database Designer

- Designed 10+ relational tables for freelancing operations
 - Implemented using SQL Server with ERD and sample data
-

Extracurricular Activities

- Member of ICPC Competitive Programming Team – Shoubra Faculty
- Creator Team Member (RC Car Project)
- Volunteer mentor for new web development learners
